

World War III

Unwritten Law

This is a question of the human
Race will this planet remain in
Space two world leaders get
In a fight we'll all be gone
In a flash of light
When I die for my country
I'll take no part in the destruction
From World War III
I have no answer not my
Decision and if I spoke no one
Would listen is this the end
Of history, why should I care
Why should I worry
When we die for our country
We'll take no part in the destruction
From World War III
