

Just a Smile

Up Dharma Down

I wanna tell you everything
Easily
Won't you come up closer
I want to hear you breathe
I'm walking down the street
I'm lost at sea

Out of the crowd you smile and
You're all I see
You make me feel like I
Can get lost inside your eyes
I feel closer to the sky

When you save the day with just a smile
I wanna meet you someday soon
Like I know you in my dream
Everything will be different
When I have you right beside
You take the whole wide world
With your sweet sweet charm
As you hold me close

And don't let go we hold forever
You make me feel like I
Can get lost inside your eyes
I feel closer to the sky
When you save the day with just a smile

Just a smile
Just a smile

You make me feel like I
Can get lost inside your eyes
I feel closer to the sky
When you save the day with just a smile

Just a smile
Just a smile
