

# Sleeptalk

## Up Dharma Down

You know I hate it  
Everytime you sleep talk through the night  
You say all the things  
That you also deny

Though it's okay  
Cause we have our little infidelities in life  
It doesn't mean that it's also right  
To keep me out of this... Yeah

You gotta hear me say  
Gotta hear me say no

You gotta hear me say  
Gotta hear me say no

Promise me you'll never  
Come back again  
Got nothing left for you

Sleeptalk  
My love  
Sleeptalk  
My love

When I've come so far  
When I've come so far  
When we've come so far  
And this is what you do  
And this is what you do  
When I've come so far  
You and I  
When I've

And this is what you do  
And this is what you do  
And this is what you do  
And this is what you do  
To me

What are you thinking of  
Hateful  
I love you
