

Come

URBANDUB

I'll come with you always my love
Your eyes burn, they burn with passion
And you hypnotize me,
I like the way you feel right.

I've found myself in you
I feel so whole
I am for you always, take me baby

Cuz I like the way you feel right
I like the way you feel so right

I know you know you want me to
And so do I cuz I want you to
You say you want me to come with you
And I reply.
