

# Fallen On Deaf Ears

URBANDUB

Hear me out  
Trying to talk to you  
It's not getting any easier  
Settle down.  
Can't seem to get through to you  
Tension builds, we begin to fall apart  
I think we're better off apart.  
Waste time with violence  
This love/hate relations...

Would you wait?  
While I'm trying to explain  
We're fighting again  
Can you hear me?

Everyday it's the same old thing with you  
We've bruised up  
We fight, then we make up  
This shit is tiring.  
We're out of line  
Is this ever gonna stop?  
When will it ever be enough?

Waste time with violence  
This love/hate relations  
Can't we see through the obvious?  
We're breaking down...

Would you wait?  
While I'm trying to explain  
We're fighting again  
Can you hear me?

You can take this love to go  
I've had enough of you  
Things aren't working out...
