

# Cry Freedom

Uriah Heep

She told the story  
I listened with my eyes closed  
So sad but so true  
She whispered softly

I asked her why she did so  
She knew that I knew  
She was a skater  
The ice was her second home

The country's finest  
Everyone could see  
She had a plan

To break across the border  
Instead of waiting for  
The powers that be

Cry freedom, sweet freedom  
Tell the whole world  
To get ready  
Cry freedom, sweet freedom  
Tell the whole world  
That we're ready

She said goodnight  
But just as I was leaving  
A black car came into view  
And waiting there  
They could hear me breathing  
They knew that I knew, cry freedom

Insane questions  
They asked me what did I know  
So strange, they let me go  
But more they try  
The stronger our love grows  
I know that I know, cry freedom

Cry freedom, sweet freedom
