

Can't comprehend, dividends end friendships  
Infinite kinships dismissed amidst dead presidents  
exist  
Poor peeps is pissed, the rich benefit taxes  
Passes all access lavish  
Extracting cabbage from famished rabbits  
Crime runnin' rampant attracting active young minds  
Habit cash a magnet  
Magnetising addicts havin' and who haven't ends  
Back-stabbing friends  
Women jockin' who got it, no Benz no yacht kid  
Nah kid pockets get clocked kid before ya knock it, uh!  
Nowadays we're raised to praise it, save it if phrase  
fits  
Unappraised gaze enslaved by crave depraving shit  
And yet we livin'  
Sittin' within a world where greed has proceeded the  
act of  
givin'  
And it's a given  
(chorus)  
Nowadays it seems like we in the last phase, maybe it's  
me  
Nowadays it seems like we in the last phase, could it  
be?  
Sisters and brothers where's the love of one another  
Discovering others of us dumber prejudice to colour,  
creed and  
religion  
Driven hate within innocent children  
Stop the killin', instil goodwill, we all be chillin',  
building  
then seal it  
Surrealist revealing since the wheel hit, hearts  
conceal it  
When death hits other men how many feel it?  
Envy alive and rising, hatred has mankind declining  
Keep in mind when time ends  
If orange as fossil findings, why then unkind when  
combined?  
Vibin' peacefully is needful, regal or not, people  
created  
equal  
Ain't no sequel  
Believe to exist the positive needed  
As evil retrieves negative energy and feeds it baby  
peep it  
(chorus)  
Life ain't twice a lifetime, dice rollin', survivin'  
Confined in gunfire, crime thrivin', and babies whining  
Narcotics, sirens, entwined Aids-related death findings  
Eyeing lab mice with virus, mesmerising minds of  
science  
Blood pressure rising, unwinding while sippin' what  
could be  
blinding  
Genocide's incog in spots we unlikely to find in

Combined with stress, sublime bottom line forming a  
hybrid  
It's like, kid, you gotta fight it son  
Weak lose and strong survive it  
As pushers lure without a pause, what you diggin' digs  
in it's  
claws  
Dimes on corners offer draws, the score's uneven  
Leavin' me feelin' someone's cheatin'  
What we teachin' in schools been used for the wrong  
reasons,  
defeating the purpose
