

# Foolin' Around

Usher

I know I vowed to never do this again but I  
I guess this seems to be the only thing I'm good at  
Got something that you need to know  
You're the realest shit I never wrote  
Can't hold it gotta let it go  
Know, that I mean every note.  
Yeah (yeah), yeah (yeah), listen baby.

Let me start by saying that the way I  
Feel for you has never once changed  
And the games I played, mistakes I made  
Leave me sorrier than you'll ever know  
We got a problem baby I can't lie  
Coz lately I realize that I  
Never knew that we was on the same (playing field)  
Knew that it was wrong but we (let it be)  
And I know you never knew when you said "I do"  
That you would have to face all the (pain you feel)

And it's killing me girl that you have to live with this  
Live with the lies I tell  
Live with the pain you feel  
Knowing the man you love is fooling around  
Oh baby said it's killin me girl  
Said I just don't understand  
Why you wanna be with this kind of man (ooh ho)  
Why would you love a fool  
With all the things I do  
I know it's hard for you  
Hard for you to live with this

Trade memories from moments  
Treat love to be lonely  
Guess that's just the man in me  
Blame it on celebrity  
When the night time feel like the right time  
And then spotlight feel like the bright light  
But it's really just my fears  
And it still don't dry your tears  
When I, say she ain't you  
When I, really love you more  
When you, say if it's true  
Why'd you do it for?  
And I, I really don't have no excuse  
I break you heart, make you cry  
I just wanna say goodbye

And it's killing me girl that you have to live with this  
Live with the lies I tell  
Live with the pain you feel  
Knowing the man you love is foolin around  
Oh baby said it's killin me girl  
Said I just dont understand  
Why you wanna be with this kind of man (ooh ho)  
Why would you love a fool  
With all the things I do  
I know its hard for you

Hard for you to live with this

What I feel I don't even gotta write it  
It's like poison in my body and there's now way to deny that my heart  
Is a time bomb  
When seconds left to explode  
But I gotta let you know before it blows  
That it ain't on you, it's my fault  
All the gossip talk, behind your back when you walk  
By the time you will know  
Before long you will see  
That you deserve more, you deserve more  
You deserve so much more  
That what I'll ever be

And it's killing me girl that you have to live with this  
Live with the lies I tell  
Live with the pain you feel  
Knowing the man you love is foolin around  
Oh baby said it's killin me girl  
Said I just don't understand  
Why you wanna be with this kind of man (ooh ho)  
Why would you love a fool  
With all the things I do  
I know it's hard for you  
Hard for you to live with this (uh)  
Live with this  
Can you, live with this, girl (ohh)  
I just want you know...

Got something that you need to know  
You're the realest shit I never wrote  
Can't hold it gotta let it go  
Know, that I mean every note. (yeah)  
Yeah (5x), hhhmmmm
