

# I Care for U

Usher

I'm saying, I care but it's like, you don't hear me  
What more could I do?

Girl you can keep that, trying to make me jealous  
I admit that I been careless  
But we can't take back what's done  
I know why you did that  
You're frustrated cause I don't react  
Maybe you want some feedback  
Cause normally my feelings don't show

But baby I care for you  
By now you should know that  
I care for you  
You say my actions never show it  
I don't wear my heart on my sleeve  
But what you get is what you see  
The truth is girl underneath  
Gotta believe that I care for you  
Baby I care for you  
I, I, I, I care  
I, I, I, I care for you

Everyday I tryna prove myself to you  
But what's the point  
No such thing as satisfying you  
Maybe you'll appreciate it later  
By the time I'm gone  
Better get your act together  
Don't wait too long  
Don't wanna change what we have  
To what we had  
Girl I need you to know

That I care for you  
By now you should know that I care for you  
You say my actions never show it  
I don't wear my heart on my sleeve  
But what you get is what you see  
The truth is girl underneath  
Gotta believe that I care for you  
Baby I care for you  
I, I, I, I care  
I, I, I, I care for you, I do

Gotta believe it  
Gotta believe it  
I care  
Gotta believe it  
Gotta believe it  
I care, I care  
You know I care

I care for you  
By now you should know that I care for you  
You say my actions never show it  
I don't wear my heart on my sleeve

But what you get is what you see  
The truth is girl underneath  
Gotta believe that I care for you  
Baby I care for you

I care, I care, I care for you
