

Mars vs. Venus

Usher

Your eyes say it all..
All...
They're fixed upon an object of desire
You can't control
No...
But gravity compels you to ignite
And explode
Ohhh...
Till that time and space combine your fantasize
The unknown

Girl, it's taken off the ground you know how I put it down
Have you see'n stars, baby
This is the big bang, so unpredictable
Sex love lets see whose in control
Mars vs Venus, yeaah
When the worlds collide big bang step in the ring of fire
Sex love is someone who can take desire

Seduce and analyze
Yeahh
Objective is to conquer deep inside..
Make paradise

Girl, it's taken off the ground you know how I put it down
Have you see'n stars, baby
This is the big bang, so unpredictable
Sex love lets see whose in control
Mars vs Venus, yeaah
When the worlds collide big bang step in the ring of fire
Sex love is someone who can take desire
(2x)

Pitch black across the mystic galaxy between the sheets
Want that only you and I
Generate then we collide
Hold that, dont make my emotions peak
If I let go then I'll be weak
Your control is my defeat
I repeat never, never, never, never...
Will I give up no, no, no, nooo

Girl, it's taken off the ground you know how I put it down
Have you see'n stars, baby
This is the big bang, so unpredictable
Sex love lets see whose in control
Mars vs Venus, yeaah
When the worlds collide big bang step in the ring of fire
Sex love is someone who can take desire

When the worlds collide!
Never know if I will win
But I gotta do it again!
Never know if I will win
But I gotta do it again!

Never know if I will win

Ohhh Mars versus Venus...
