

She Came to Give It to You

Usher

Said it ain't what you do cuz
Said if you do what I do, she'll be yours tonight
Imagine she can't get a getaway
Well she don't want nobody crowding her space
Wouldn't that be weird? Aw yeah
She was up all night to get down
But she don't wanna be a part of the crowd
Wouldn't that be weird? Aw yeah

So confused, if you only knew she came to give it to you

It ain't what you do its what you do tonight
And there ain't no shortcut to doing something right
Said if you do what I do, she'll be yours tonight
Just look around the club cuz and have a good time

So many benefits to being wild, just be cool enjoy the ride
'Cause all you really wanna do is, wouldn't that be weird? Yeah
Don't be stingy with it pass the J, when I hit it this headache go away
Yeah that's weird

So confused, if you only knew she came to give it to you

It ain't what you do its what you do tonight
And there ain't no shortcut to doing something right
Said if you do what I do, she'll be yours tonight
Just look around the club cuz and have a good time

Yo, he want the flirty girl, I'm the girly girl

If your girl come through, Nicki gonna crush her
And tell your man play the back like a spine
He only last six seconds like a Vine

So confused, if you only knew she came to give it to you

It ain't what you do its what you do tonight
And there ain't no shortcut to doing something right
Said if you do what I do, she'll be yours tonight
Just look around the club cuz and have a good time
