

# Will Work for Love

Usher

Can you help me?  
Anybody out there help me  
Please can you help me?

Excuse me mister  
I fell on hard times  
I need some help  
But don't need a dime  
Don't turn away  
I'll wash your clothes  
If you let me stay  
(I'll) find your remote,  
Day after day  
People walk by  
I can't catch their eye  
I hold up my sign

It says  
Will work for love  
I will I will I will I'll work for love  
Overtime baby  
It says will work for love  
I will I will I will I'll work for love  
For all my life  
I will work for love

Can you help me? (help me)  
Anybody out there help me (if there's anybody out there)  
Please can you help me?  
Excuse me you two  
Got love to spare?  
Search my whole heart  
It ain't none in there  
What makes a star  
I'm on my last  
Don't have no love  
That's okay God blessed  
Day after day  
People walk by now  
I can't catch their eyes  
Holding up my sign

It says  
Will work for love  
I will I will I will I'll work for love  
Overtime baby  
It says will work for love  
I will I will I will I'll work for love  
For all my life  
I will work for love

I remember the day I lost my heart (hey yeah)  
Took it for granted I went too far  
Fall down, crying and beg  
To feel that love again  
I'll Hold this sign till the very end  
Do anything

I will will I will I'll work for love,  
Overtime baby  
It says will work for love  
I will will I will I'll work for love  
For all my life  
I will work for love
