

Let Me Give You My Love

Utada

What a day, young boy next door passed away
Oh it makes me wanna say
I don't wanna waste another day
Can you and I start mixing gene pools
Eastern, Western people
Get naughty multilingual

I was sort of like soul searching
But your body's so jaw-dropping
Our chemistry's groundbreaking
Don't keep me waiting

Hurry up, baby hurry up, baby
Let me give you my love
Hurry up, let's turn this room into a melting pot
Giddy up, baby giddy up, baby
Let me give you my love
Buckle up, boy I know you gonna like what I got

Maybe it's not worth the wait
Maybe I should walk away
I don't wanna waste my energy
Can you and I stop acting like fools
Or move on to other people
It's funny, but I'd like to settle

I was sort of like soul searching
But your body's so jaw dropping
Some say it's rulebreaking
But times are changing

Hurry up, baby hurry up, baby
Let me give you my love
Hurry up, let's turn this room into a melting pot
Giddy up, baby giddy up, baby
Let me give you my love
Buckle up, boy I know you gonna like what I got

Let me know if what I'm feeling isn't mutual
All I know is that I'm feeling very very hot hot hot

Hurry up, baby hurry up, baby
Let me give you my love
Hurry up, let's turn this room into a melting pot
Giddy up, baby giddy up, baby
Let me give you my love
Buckle up, boy I know you gonna like what I got

Hurry up, baby hurry up, baby
Let me give you my love
Hurry up, let's turn this room into a melting pot
Giddy up, baby giddy up, baby
Let me give you my love
Buckle up, boy I know you gonna like what I got
