

Me Muero

Utada

Everyday in my life's in shambles
It's easy, took the love away
I got nothing left to gamble
I've thrown it all away

[Chorus:]

Now and then I'm suicidal
Flirting with a new temptation
Happiness inside a bottle is what I need today
Oh my lover's gone away, gone to Istanbul
Light as a feather
I lie in my bed and flip through TV channels
Eating Godiva
I'm smoking my days away reading old emails
In my old pajamas
What a day, me muero, muero, muero

Loneliness makes its arrival
Depression starts to settle in
Try to go where no one'll write her
And do some crazy thing

[Chorus]

It's the good stuff, oh my lover
Lover
Smoking, I'm smoking my days away
What a day, me muero, muero, muero
What a day

Gone away...yeah
Doctor, doctor
You give me my lover
Oh yeah
Oh my lover
Gone, gone away
My lover, gone away
What a day, me muero, muero, muero
