

Despair

Vader

Stench of human entities
The absolute of sin
Degeneration dominating
Scum prevails and rules

Suffocating ignorance
And everlasting cruelty
Corrupted saints in golden palaces
Devastating idols

Huge cosmic hybrid
Of the selfishness and envy
Vanity, stupidity
Genetic collapse

Mother earth annihilated
Skinned and raped by greed
All life is burned and leads to hell
In rhythm of march of the damned

...and no God here
No God here
No more!
