

# The Black Eye

Vader

Flash blinding eyes, chariots descend  
Dark gods coming back to the Earth  
Through the black distant eye  
Upon the bloodred skies  
Their horned crowns glowing, crushing yell of death  
Welcome back!!!

(lead Spider)

Gates are opened, now winds take command  
Human skulls under feet  
"We came again to claim and reign"  
Eyes full of hate, their hands holding fire  
Mighty power strikes, thunder lash

(lead Spider)

(lead Peter)

(lead Spider)

Black demon's eye, a portal to the death  
Messenger of genocide  
The gods are spreading their wings, cover up the skies  
Striking in revenge, the beast is out of Hell

(lead Spider)

Dark, pride majesty marching in  
The world of life is kneeling down humbly  
The end or new beginning, life or death  
The chosen ones awakened, raising to the stars

(lead Spider)

Portal is opened, once again  
Shadows move, the night is falling down so fast  
Blast of fire, never ends  
Black eye is calling, into the abysssss...  
Flash blinding eyes, chariots ascend  
The gods rising up to the stars  
Through the black distant eye upon the dark skies  
Their horned crowns glowing, fading yell in the air
