

## Push That Button

Vado

I ain't worry about nothing  
Nigga outta push that button (do this! )  
Nigga outta push that button  
Nigga outta push that button  
Fresh what up?  
If I had to worry about something  
Nigga outta push that button  
Holler! Nigga outta push that button  
Nigga outta push that button

These niggas breathing, no lie  
My truck is squeezing, both slide  
Picture perfect both time  
Bad girl, picture working all night.  
I'm on the block with that'  
Drop out the drop with them pennies  
Keep hoes and flux, I've got many  
I'm doing to pop off that Henny, nigga!  
Let me do it!  
My men bad,  
Work with me, you would have been dead  
We move on, we spit less  
But we don't move on, what the bitch said?  
I'm from the bottom, where the shit red  
Louis Vuittons, no bricks fed  
Black Rubicon, no thick legs  
These dudes broads just getting head.  
You know what they be with me  
Soon by the great six fifty  
Who that behind me? That's Chino!  
What he do, young Nino?  
Just know that he let go  
When that... go, shots echo

All on your strip, niggas all on my dick  
I'll be all on the bench  
Plus I've been talking that shit, yeah!  
You're turning the faggots  
I don't want it, can have it

I ain't worry about nothing  
Nigga outta push that button (do this! )  
Nigga outta push that button  
Nigga outta push that button  
Fresh what up?  
If I had to worry about something  
Nigga outta push that button  
Holler! Nigga outta push that button  
Nigga outta push that button

Round round with that warrant  
Strapped up with my nigga  
So bad bitch wakin'  
Thinking I'mma get her  
But we're the best, remember  
Bobby' my nigga  
My hoe hold on it

So now niggas don't want it!

I ain't worry about nothing  
Nigga outta push that button (do this! )  
Nigga outta push that button  
Nigga outta push that button  
Fresh what up?  
If I worry about something  
Nigga outta push that button  
Holler! Nigga outta push that button  
Nigga outta push that button

Yeah! We're the best takeovers, nigga  
Harlem, what we're doing?  
We're getting on this bullshit!  
It's gonna be our summer, besides the weather, nigga!
