

Talk To Em

Vado

I don't give a fuck, hard please...
The streets fell me like a heart Beat...
I ain't the next Nigga, I'm best Nigga
Fuck the rest Nigga...
HUH!, Vado Man...
Gotcha niggas on ya tippie toes right now...

Court Cases, Second felony violating probation...
My heart Racing in the hallway, Pacing
Not Guilty, Standing ovation...
Hands filthy from living low maintenance, I Can't take it
My enemies eating still I feel no hatred... (not at all)
All 17 in em, non wasted, Death done faced it
Ya just Tracing, now picture it...
I'm around dudes that's getting it
But Fuck with old heads, these lil niggas is ignorant...
I'm listening playing Chest with him, he whispering
Told Me my next moves, to make a move legitimate
I figure it out, still I show what a Thug about...
I seen the whole 139th crew take each other out (God Bless)
I'm in the woods but by the water, my other house
Gated up community, something you know nothing bout

Shots fired, Man down, go get the chalk Drawn
His Body is cold, the skies getting Dark ohhh?
What ever he did, that made em pull the mark on em
Them niggas Marched on em, took his Antrumark? Off em
Round here that be the ordinary, Talk To Em (3x)
You ever beefing with Me you should be more than Worried

Another small time Slime, with a Million dollar fetish
Ya life is like a movie, Imma skip to the credits
Cause I ain't Tryna see it, nor due respect it...
You could look in the bottle, but can't get the message
This rap shit is a sport, and Imma play dirty
2 glocks for support, so I could spray 30
Back and forth with court, the reason I stay worried
Everything is a cost, they want me to pay early...
I hit LA early(HUH), meet the crew later...
Eat waffles in the dirty, while I read the news paper
I never came up short, cause I don't do favors(NA)
I like to wear NIKE Airs, but I don't do flavors(Not At All)
Just the basics, all white like a Racist
I told wifey to stand by me, I'm gone make it(I Gotchu)
She could look in my eyes, and see the matrix
I'm the ONE when I comes to this music, I gotta Face it

Shots fired, Man down, go get the chalk Drawn
His Body is cold, the skies getting Dark ohhh?
What ever he did, that made em pull the mark on em
Them niggas Marched on em, took his Antrumark? Off em
Round here that be the ordinary, Talk To Em (3x)
You ever beefing with Me you should be more than Worried
