

## Aghast

Vallenfyre

Hoar Frost  
An Endless Winter  
The Sun Sets Ablaze  
Seasons Of Mist  
Dashed On The Shores Of Doom

Like Some Misborn, Monstrous Child  
Slake My Dreams And Quench My Cries  
A God Who Feeds On Carnage And Death  
Our Blood Escapes From Every Single Pore

The Rancid Milk Of A Withered Breast  
Inhale The Deadly Flower  
Wrench The Crimson From His Chest  
The Blackened River Descends Into Our Core

I Am Aghast

Forced To Walk On Seas of Corpses  
Like Maggots, The Remorse Devours My Flesh  
Toward A Darkened Abyss Of Human Pollution  
Hellwards Each Day Down One More Step
