

## One (Blake's Got a New Face)

Vampire Weekend

Occident out on the weekend  
That's the way that we relax

English Breakfast tastes like Darjeeling  
But she's too cute to even ask

Blake's got a new face (Blake's got a new face)

Nastiness will cause your doom  
Turn and walk back to your room

The precedent's already set now  
You spend a week in Old San Juan

Spanish brownstone with chairs of leather  
And Spanish waves to roll along

Majesty's not overheard  
Cryptographs can't stand the word

Oh your collegiate grief has left you dowdy in sweatshirts  
Absolute horror!
