

## Black Betty

### Vampires Everywhere!

I see your lipstick stains on the dirty sheets  
I smell your cheap perfume ah, all over me  
But I can't pretend that I want you  
That I need you, that I want you  
'Round this town I know you get around

Black out, watch out  
Let it all out  
She wants her name in the magazines  
Woah, Black Betty  
Black out, watch out  
Let it all out  
She was built to make you scream  
Woah, Black Betty

I feel you empty heart, burns like a poison dart  
I know your heart doesn't come for free (Heart doesn't come for free)

But I can't pretend that I want you  
That I need you, that I want you  
'Round this town I know you get around

Black out, watch out  
Let it all out  
She wants her name in the magazines  
Woah, Black Betty  
Black out, watch out  
Let it all out  
She was built to make you scream  
Woah, Black Betty

Yeah  
Black Betty  
Yeah

I swear the lies you tell  
Will send you straight to hell  
I swear the lies you tell  
Will send you straight to hell

Black out, watch out  
Let it all out  
She wants her name in the magazines  
Woah, Black Betty  
Black out, watch out  
Let it all out  
She was built to make you scream  
Woah, Black Betty
