

Suffocate Me

Vampires Everywhere!

I'm cursed to walk this earth alone
Embalming pictures of every one I used to know
I can't understand the words you say
When I've been drinking
I buried them inside and tossed away the key

It's times like this that bring me down
Bring me down, pull me down
Hard for me to save me now
I rather drown here we go
I'm starting to float away

It's not like me to say the words you need
Now I can't breathe, I'm suffocating me
I can't stand up, I'm on my knees
Prayers hurry, please, I'm suffocating me

I feel the teeth inside my heart
Slowly waiting, it's crushing light
Will it wash these tears away
I never tried to help myself
When I've been faded
I lie to good and always find a vile way

Times like this that bring me down
Bring me down, pull me down
Hard for me to save me now
I rather drown here we go
I'm starting to float away

It's not like me to say the words you need
Now I can't breathe, I'm suffocating me
I can't stand up, I'm on my knees
Prayers hurry, please, I'm suffocating me

I'll just dip my hands inside the flames
Everything will be ok
It's only blessed if I'm not betrayed

I am suffocating
I am suffocating

It's not like me to say the words you need
Now I can't breathe, I'm suffocating me
I can't stand up, I'm on my knees
Prayers hurry, please, I'm suffocating me

It's not like me to say the words you need
Now I can't breathe, I'm suffocating me
I can't stand up, I'm on my knees
Prayers hurry, please, I'm suffocating me
