

# Virgin Suicide

Van She

Said she wanted a change  
But she came home dead without noting to say  
Notice that her pain won't go away  
Just think of your soul and the dances you make

So don't, don't, stop back (you wanted everything)  
Don't be afraid (don't want to be alone)  
Know what you want (you wanted everything, you wanted everythin  
g, you wouldn't ever know)

Trip tried to hide the morning after  
It's not the things she said but the line in her bed  
She don't even wanting the truth said  
It's the life inside and the words she don't say

So don't, don't, stop back (you wanted everything)  
Don't be afraid (don't want to be alone)  
Know what you want (you wanted everything, you wanted everythin  
g, you wouldn't ever know)
