## **Star Bright**

## Vanessa Williams

Star Bright, first star I see tonight Could you oh would you please shine your light Shine it so I can see, my savior smilin' at me

Star Bright, I hear you once proclaimed This is the way, keep on followin' me and at the end of the road will be, a baby

And there, in him you'll find, a love that is truly blind given so from your heart that love that light, could shine

Shine, shine, shine, Shine

Star Bright, first star they saw that night I am aware that this love is for me and the greatest of gifts is free Yet my heart of hearts is heavy

Star Bright, if I give you my hand Could you oh would you please see me through I would love to take my heart blue, and give it to you

And there, in my heart you'll find, a love that is truly blind given to me, so that I could let my, light shine

Shine, shine, shine, Shine,

Star Bright, Star Bright, Star Bright Star Bright, Star Bright Star Bright, Star Bright Shine your light
