

Archegonic disaster  
Into the depths of mind  
A merciless mockery  
Of an innocent soul  
Into the dark planet  
Like a demon, a hellspawn  
Hymns and chants  
In thy altar of putrid existence

Eternal sacrifice  
Unspeakable silence

I ride the eternal winds  
I look the crimson skies  
I'll find the gates of abyss  
I hear the voice of him  
I pray the mighty one  
I seek the utter salvation

Lust for the birth  
Womb that gives life  
And pukes curses  
Curses and miasmas

I ride the eternal winds  
I look the crimson skies  
I'll find the gates of abyss  
I hear the voice of him  
I pray the mighty one  
I seek the utter salvation

Monks raped and sodomized  
In the name of false god  
priests decapitated  
In the name of a holy truth

The age of magic  
Forever immortal

I ride the eternal winds  
I look the crimson skies  
I'll find the gates of abyss  
I hear the voice of him  
I pray the mighty one  
I seek the utter salvation
