

# Be The One

Varius Manx

I wanna see the light in your eyes  
Hopeful day can be right now  
Sometimes it's hard  
Sometimes you cry  
But inside there's always the light

I wanna know that you can see  
Your own way and place to be  
And still believe in this one dream  
Of love, beauty and peace

Tell me if you want to be the one  
Show me that you want to  
Now's the time

I wanna tell the bit of your heart  
While you've got the love inside  
Don't be ashamed of tears flowing down  
Feelings are the best things you find

You must be sure it's all up to you  
Even though you sometimes lose  
I need to know you're not afraid  
Of your part i'm asking again

Tell me if you want to be the one...

I wanna see the light in your eyes  
hopeful day can be right now  
Just still believe in this one dream  
Of love, beauty and peace
