

Bring On the Day

Vaughan Penn

Bring on the Day
Jump in you might get wet
Get caught at least you place your bet
Fly hard while you're getting by
Let heaven open up your arms
Reach for the sky

Bring on the day
Go ahead cause you can't sleep any way
Bring on the day
Don't have to wait for tomorrow
Bring on the day
Go ahead, bring it on
Til the sun comes shining through
So relax you're gonna take the show

So kick back let all your blessings flow
Not everybody's gonna sympathize
Now you've gotta take your shot
Open your eyes

Bring on the day
Go ahead cause you can't sleep any way
Bring on the day
Don't have to wait for tomorrow
Bring on the day
Go ahead, bring it on
Til the sun comes shining through
Tripping into morning
Stumble out of bed
Guess you could be soaring
On your cloud instead
(Chorus)
