

One Step Closer

Vaughan Penn

One Step Closer
You walk in the room
Your baby blues they talk to me
I still see that you still have this heart of mine
Under lock and key

Somebody help me
Tell me it's wrong
Cause I'm one step closer
To too far gone

Rain it starts to pour down
These thoughts they come round
Like a hurricane
When fate calls there's nothing you can do
Cause you can't choose love
Baby it chooses you

Everybody's looking for someone
To make them feel complete
I searched the whole wide world over
Baby you're the one for me
