

Some Kinda' Sign

Vaughan Penn

When the world was shakin' inside out you kept me safe through
the aftershocks
You used to hold me up but now you just hold me back
Yeah you were someone I liked a lot
Check it out
And now it all seems so surreal
Check it out
I think I gotta tell you how I feel

Cause I cannot cope with what you had in mind
Give me some rope so I can hang this pride
I need some hope
Give me some kinda' sign that everything is gonna be fine
Some kind of sign that everything is fine
Some kinda' sign
You say you love me well then good for you
But love doesn't live in a lion's cave
You're always sure you know the better thing to do
Well now I hope you're happy sleepin' in this bed you made
Check it out
Nobody owns me now
Check it out
No one controls me now

Some kind of sign that everything is fine
That everything is fine
It's fine
It's fine
Give me some kind of sign
Give me some kinda' sign
I need some kinda' sign that everything is gonna be fine
Everything is gonna be fine
Everything is gonna be fine

Some kind of sign that everything is fine
I need some kinda' sign
Some kind of sign that everything is fine
I need I need some kinda' sign that everything is fine
