

## Touch the Sky

Vaughan Penn

Touch the Sky

I try to be still so I can hear your heartbeat

But this feeling is really moving me

All over and all under

I'm rolling so fast that I feel like, feel like thunder

Runnin' like a freight train,

Gliding like an airplane

I'm so high when I'm with you

That I could fly away with you

I touch the sky when I'm with you

When I'm with you

Hey, what would you say if I told you I could give you

Every single minute, every single day

Would you be ready to give it all to me

Cause I already gave my heart away to you

You've really got a hold on me

I never knew that I could be this happy

I'm so high when I'm with you

That I could fly away with you

I touch the sky when I'm with you

When I'm with you

I am floating I'm walking through the clouds

And I don't ever, ever want to come down

Cause you're best thing that's happened to me

In a long time, a long time, a long time

I'm so high when I'm with you

That I could fly away with you

I touch the sky when I'm with you

When I'm with you

I try to be still so I can hear your heartbeat

Hear your heartbeat
