## Veil of Maya

I've held it in my hands [2x]  
My dismembered soul reassembles  
I've held it in my hands [2x]  
My dismembered soul reassembles

My dismembered soul

Take shape of which you desire  
Evil lingers within each valley we pass through [2x]

I've held it in my hands [2x]

Evil lingers within everything [2x]

Hope has replenished my healing body relentless  
Always in motion

Evil lingers within everything

I've seen it now, I've held it in my hands  
My dismembered soul reassembles [2x]

Elevation is no escape  
We send ourselves  
To search for tranquility  
A feeling that can't be found

Search for tranquility  
A feeling that can't be found  
It is fabricated through acceptance  
Of a broken world

Evil lingers within everything [4x]
