

Shelter From The Rain

Venke Knutson

Every time I needed saving
You were never far behind
So consoling, generous
You made me feel like everything's alright
Alright alright alright

And every time the season's changing
You are the constant in my life
So unselfish, considerate
You tie together all my loose ends
So if you need me

[Chorus]

Let me be your shelter from the rain
I know it takes more than a little good will to give
Let me be your shelter from the rain
I could have never asked for all that you've given me
So if you're hurting
I'll share your pain

If you don't have all the answers
If you don't know which way to go
I hope you know it's only natural
I'll be there for you - I'll be your rock
If you need me.

[Chorus]

Let me be your shelter from the rain
I know it takes more than a little good will to give
Let me be your shelter from the rain
I could have never asked for all that you've given me
So if you're hurting
I'll share your pain

Let me tell you something that you ought to know
When life does not agree
I'll be there by your side when you're a little low
Baby let me be
Your shelter from the rain

[Chorus]

Let me be your shelter from the rain
I know it takes more than a little good will to give
Let me be your shelter from the rain
I could have never asked for all that you've given me
So if you're hurting
I'll share your pain.
