

You're So Cool

Venke Knutson

I am an actress
You play the bad-boy role
Act like you mean it
Heart and soul

And I play the good-girl
You come to change my world
You give me a fever
How can I ever stop this sworl

Cause ooh
I have never felt so wonderful you fool
Making love was just a Sunday-act
And ooh
This is more than I can take
Cause you're so cool
You're so cool

Always a hero
You come to save the day
Beautiful stranger
Come my way (come come come)

How you linger
In my fingertips
Makes me wonder
How it ever came to this

CHORUS

When you make me scream and shout
I know you know that I'm about to lose my mind
I can't understand the spell that I'm under
You got me shook
Is it any wonder to you

CHORUS
