

## Control Freak

Venom

Controller stands his ground  
Un-moving, fixed staring  
You must comply with his demands  
He tells you this  
Don't think to question his will  
Mutter his congregation  
Un-told terrors will un-fold  
According to who - someone said  
Controller waves his stick  
Un-fearing, grip tightening  
You will understand all (one day)  
He tells you this  
Why can't we know all now  
Silence, screams the controller  
You will be deemed un-worthy  
Unworthy of what - someone said  
Control freak  
Bleeds you dry  
Control freak  
Fades & dies  
Control freak  
Leeches lust  
Control freak  
Vanish in dust  
Controller strikes a match  
Un-shaken, yet forsaken  
You must drink the flame (of life)  
He sells you this  
Your faith will cost you all  
To stop will see him fall  
Silence spits the controller  
Fuck you - someone said
