Loose words and prepositions lead me to where you lie Give me a proposition and I'll let you waste my time Some shelter we've been given from all the shit outside So I'll conjure up an image Let it distract a while

Take me home and watch me give it up
Chase some young ideas that I've dreamt up

Constant crush
It's always got a hold on, hold on me It's in my blood
Always got a hold on, hold on me
It's in my blood

Under the complication
I'll keep closing my eyes
Lower my expectations
so I can sleep at night

Take me home and watch me give you up Chase some idealism I've dreamt up

Constant crush
It's always got a hold on, hold on me It's in my blood
Always got a hold on, hold on me
It's in my blood
