

## Rearrange

Vérité

Holding on to air  
I'll let you take me there  
I'll breathe a little easy  
Never standing in one place  
The same familiar gate  
I know you thought I can't escape, this time

Can you help me rearrange my mind?  
Can you help me rearrange my night?  
So you can help me rearrange my mind?

Like I'm standing in one place  
The same familiar state  
You know I stay hopeless for a while  
Let you take me down  
As long as I don't feel it  
Cause in the end I never mean it, I can say this time

Can you help me rearrange my mind?  
Can you help me rearrange my night?  
So you can help me rearrange my mind?  
This time  
Can you help me rearrange my mind?  
Can you help me rearrange my night?  
So you can help me rearrange my mind?

All I can say is, all I can say is  
All I can say is, all I can say is  
You can help me rearrange my night  
You can help me rearrange my night  
You can help me rearrange my night  
This time

Can you help me rearrange my mind?  
Can you help me rearrange my night?  
So you can help me rearrange my mind?  
This time  
Can you help me rearrange my mind?  
Can you help me rearrange my night?  
So you can help me rearrange my mind?
