

## Dead from the Heart on Down

Vern Gosdin

My friends all came around to say goodbye  
And to see if there was something they could do  
But they knew from the tears that filled my eyes  
There was just one way to get me over you

They may as well just lay my soul to rest  
And place pretty flowers on my chest  
In my head the world still turns around  
But I'm dead from the heart on down

Take me in that long black limousine  
To the church yard on the other side of town  
Just lay me down with all my shattered dreams  
'Cause I'm dead from the heart on down

You may as well just lay my soul to rest  
And place pretty flowers on my chest  
In my head the world still turns around  
But I'm dead from the heart on down

Yes I'm dead from the heart on down
