

Fire in Our Bedroom

Vern Gosdin

Seems like everybody's slipping around with someone else
But we ain't worried about no one but us
There's a whole lot of cheating going on when you got no one to
hold
But we never let each other get that cold

There's a fire in our bedroom
And it burns burns burns day and night
And the flames are getting higher
But just leave it alone everything's gonna be all right

Everybody's wondering how we keep our love so warm
We stay wrapped up in each other's arms
And they talk about that big ol' house with icy window panes
But they don't know our bedroom's up in flames

There's a fire in our bedroom
And it burns burns burns day and night
And the flames are getting higher
But just leave it alone everything's gonna be all right

There's a fire in our bedroom
And it burns burns burns day and night
And the flames are getting higher
But just leave it alone everything's gonna be all right

I said leave it alone everything's gonna be all right
