

# I Can Tell by the Way You Dance

Vern Gosdin

I could see every time I look into your eyes  
You don't care a thing about those other guys  
Without words you make me understand what's on your mind  
The rhythm of your body close to mine

I can tell by the way you dance  
That you're gonna love me tonight

Sometimes it's cold sometimes it's hot  
Love's either right or it's wrong  
Feels so good, love you a lot  
Right here beside me is where you belong

I don't care if everybody knows the way I feel  
Until the dream of holding you is real

I can tell by the way you dance  
That you're gonna love me tonight

Sometimes it's cold sometimes it's hot  
Love's either right or it's wrong  
Feels so good, love you a lot  
Right here beside me is where you belong

I don't care if everybody knows the way I feel  
Until the dream of holding you is real

I can tell by the way you dance  
That you're gonna love me tonight  
I can tell by the way you dance  
That you're gonna love me tonight  
I can tell by the way you dance  
That you're gonna love me tonight  
I can tell by the way you dance  
That you're gonna love me tonight
