

I Like My Country Music Kinda Rock

Vern Gosdin

I fell in love with "Faded Love"
Bob Wills is still the king
Then '55 came alive with Elvis on the scene
Rhythm and blues, "Blue Suede Shoes" and "Love Me Tenderly"
And the history they were making got me hooked on Jerry Lee

I like my music when it's hot
Something with a feeling says a lot
If it can make you laugh and cry
Then I'll take all you've got
I like my country music kinda rock

Now there's been a change in western swing
But, ol' George keeps 'em Strait
And that hounddog sound is still around
They just brought it up to date
They raised the heat on the same ol' beat (They raised the heat
on the same ol' beat)
And again they're number one (And again they're number one)
And I'm checkin' in with my DJ friends to see what Brooks has d
one

Oh, I like my music when it's hot
Something with a feeling says a lot
If it can make you laugh and cry
Then I'll take all you've got
'Cause I like my country music kinda rock

I still love ol' Hank and I still like the Rolling Stones a lot
Got to have my country music kinda rock
