

Too Long Gone

Vern Gosdin

As I turned in the driveway you turned on the light
My hands were shaking when I turned the key
Cause out there on the highway I dreamed of you each night
And I knew you'd be waiting up for me

I've been too long gone
Too far from home
I've seen too much rain felt too much pain
I've been gone too long gone

You're more than just a woman burning with desire
Lying here so willing and so warm
And I'm so close to heaven it sets my soul on fire
Remembering how you trembled in my arms

I've been too long gone
Too far from home
I've seen too much rain felt too much pain
I've been gone too long gone
