

# We Make Beautiful Music Together

Vern Gosdin

We make beautiful music together  
With heart strings tuned in perfect harmony  
Play with me our love song forever  
We make beautiful music together

When we met I felt I'd always known you  
Like the greatest song you think you've heard  
Every note fell into place so naturally  
Love grew stronger as we sang each word

We make beautiful music together  
With heart strings tuned in perfect harmony  
Play with me our love song forever  
We make beautiful music together

Though we're only two we're like a symphony  
Playing melodies from deep within  
All through life we'll cherish each new love song  
Confident our songs will never end

We make beautiful music together  
With heart strings tuned in perfect harmony  
Play with me our love song forever  
We make beautiful music together

We make beautiful music together
