

You Never Cross My Mind

Vern Gosdin

I lay there every night where you love me
I'm used to nights that go by slow
I wake up every day where you left me
Wondering which way the days gonna go

You never cross my mind
Though I cry from time to time
You never cross my mind
You stay there all the time

From time to time my eyes will find your picture
One I forgot to put away
Another memory tries to make me miss you
And I find one more reminder every day

You never cross my mind
Though I cry from time to time
You never cross my mind
You stay there all the time
