

## Unlearn

### Verse

Face down. I'm stuck inside these boundaries that were put in place  
to fucking quiet me...to bury me. I was given a uniform but soon  
learned that's just a disguise. The reality is misconstrued and subdued  
until your spirit dies. Born into a culture that teaches you to keep  
taking not giving. Will you live your life spending? Or will you spend  
your life living?

Unlearn.

A control just like heroin, you stole from us all again. Cold hands around  
our throats big man, If we speak up you're silencing. Too big business  
minded, when you see vision you blind it. Propaganda mixed with power  
brought on one-sided violence. Ideas remain bulletproof so you can never  
fucking silence.

Unlearn.
