

We Were Here

Verse

The season's changing
And I'm feeling left behind
It's getting so much colder now
But my heart's still stuck in that Summertime
Simple conversations
Running through my mind
Reminding me of how much this time meant
So I gotta let all of you know
That every moment we shared
And every helping hand
Meant so much more
Than any outsider could ever understand
Eleven kids in a van
Made me understand
Sacrifice and commitment to a movement
Based on reaching out your hand
We buried memories on 39th and Glisan
That said "WE WERE HERE"
