

Sit and Wonder

The Verve

I sit and wonder, I often wonder
I sit and wonder about the things she does
I sit and wonder, I often wonder,
I've been waiting for this moment to come

And she's the teacher and I'm the pupil but I aint learning any
thing at all,
Now I'm falling into the black hole and I can barely feel the s
un

Yeah I sit and wonder, I fall to pieces
I've been waiting for her to come
A bed of roses, her cheeks like peaches,
Yeah I aint going to wait no more,

Give me some light, give the light, yeah give me some light, gi
ve me some light

Well writes a passage, we are mistaken yeah some are going to b
reak into stone,
The door is open and I am reaching, yeah it looks like a prodic
al son

Yeah give me some light, give the light, yeah give me some ligh
t, give me some light

God give me the light, give me the light, yeah give me some lig
ht, give me some light

I've been there doing it to my mind lord

Something is going on inside my head lord
Something is going on inside my head lord
