

Burn This Place

Vex Red

In this darkness, in this absence of all light
If I asked you "Would you sit with me tonight?"
We were floating, now we're fooling, you and I

So come on, show me
So come on, show me

As I watch you scratching endless lullabies
This is... graceful and disguised
You're the ghost and I am burning, you're the everything I'm yelling
Fascinated, how the world looks through your eyes

So come on, show me
So come on, show me
Let's burn this place, I will if you will
So come on, show me

Our flame burns ever higher
Let's set this world on fire
World on fire
World on...
