

So I Can Sleep

Vex Red

Let's torch the scene
This tired machine
There's a charm to days without calm
I feel like it could be

After a while
In denial
Yeah we do and we know it too
We make all our own mistakes

Somnia, feels like I'm walking blind
Straight into a trap

Give me the dark, oh my god
To reclaim my heart is all I want
So give me the dark
I've seen all I need to see
To be all I need to be

Let's torch the scene
This war machine
Trace a line, I'm drawn to decline
I need it so I can sleep

Give me the dark, oh my god
To reclaim my heart is all I want
So give me the dark
I've seen all I need to see
To be all I need to be
I've seen all I need to see
To be all I need to be
