

# Songbird

Vicci Martinez

Why don't we sleep in today  
I'd like to show you just how everyday would be  
If we had each other's company you'd see  
We could make our everafter's end happily

Now there's a reason we are here  
I'd like to be the one to break you from your fear  
Surrender my dear  
It would only take the time  
If you would only make the time  
Cause we can't take a chance and let another day slip  
away, slip away

Sing sweet songbird  
Fill me up with your words  
Sing sweet songbird  
Fly away

I've never seen such a sight  
You are so special and unique  
You float across the sea  
You carried by the wind  
Oh so innocent you're so content  
An angel with her wings  
And it makes it really hard to leave  
I swear that I still feel you right here next to me  
An angel with wings

It would only take the time  
If you would only make the time  
Cause we can't take a chance  
And let another day slip away, slip away

Sing sweet song bird  
Fill me up with your words  
Sing sweet song bird  
Fly away with me  
Come on fly awayyyy

Cause it would only take the time  
If you would only make the time baby  
Cause we can't take the chance  
And let another day slip away, slip away

Sing sweet song bird  
Fill me up with your words  
Sing sweet songbird  
Fly away with me  
Sing sweet song biiirddd  
Fly, fly away with me  
Come on fly away with me tonight
