

Latex Love

Vice Squad

You're my little rubber scrubber
How I love the scent
I'm into wild perversions
And both of us are bent
Let me insert the breathing tube
And the emetic
Let my bull whip bite you hard
Don't you feel ecstatic

Latex, latex, latex love
It's the only way for me
Give me all your rubber love
I'll never let you free

Give me my skin substitute
And the gas mask too
I need the euphoria
And I want ft with you
Lock you in the wardrobe, babe
Rubber rain coat smell
Dirty macintosh boy
Under my deviant spell

Latex, latex, latex love
It's the only way for me
Give me all your rubber love
I'll never set you free
